

Tier 6—Data Enhancement Gateway

Unlike our other Tiers, Tier 6 isn't a trace tool in terms of providing new addresses – we call it our data enhancement gateway that enhances our other Tiers and provides a set of data which can help our clients make decisions on collection strategies. Tier 6 comes as a data block including:

- Telephone numbers (work, home, mobile)
- Employment status
- Salary information
- Home ownership information
- Adverse public information, e.g. CCJs, IVAs and Bankruptcies

This is a superb and far reaching bolt on tool for collection accounts be it live or gone away and can be tagged onto any of our tracing tiers. UKSL can also create a suitable trace strategy for our clients in this regards if required.

This service is based on a per search model as we will always obtain some sort of information from our data sets.
